HEAD FOR THE STARS

IF YOU'RE planning a trip to London this summer and want to do something a little different, pick up a London Star Map. Fancy popping into the famous bookshop where the characters played by Hugh Grant and Julia Roberts meet in the film *Notting Hill*? What about seeing the place where the Beatles played their final live performance? The pocket-sized map covers everything from famous film locations to places where celebrities live. Priced at £6.95, 10 percent of profits go to environmental charities, too.

Available from most bookshops and newsagents.
