The short list

ONE THING YOU REALLY SHOULD KNOW

THE LONDON STAR MAP

Ever wanted to know where Kate Moss lives, where Pink Floyd held their first gig and where you can have a pint at Sting's bar in the film *Lock, Stock and Two Smoking Barrels*? The London Star Map is a pop out map like a real-life Harry Potter Marauder's Map, covering everything from celebrity homes and haunts to famous film and music locations. Not only that but it's completely biodegradable, made from pulp sourced from sustainable forests, and 10 per cent of the profits from sales go to environmental charities.
